Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This Office Action is in response to the amendment filed on 12/17/04. Currently, claims

and
1, 3-20 are pending. Applicant has canceled claim 2.

Specification

The amendment to the disclosure based on minor formalities are sufficient to overcome the objection to the specification. The objection to specification has been withdrawn.

The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 6-10 recites the limitation "thereby forming the nitrided oxide on the liner oxide." in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claims 15 and 16 recites the limitations "...step d) is carried out by using an RPN" and in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claims 17 and 18 recites the limitation "step d) is carried out by using an RLSA" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Specifically, there is insufficient antecedent bases for steps e) and d) with regards to the newly amended independent claims 1 and 14, since stated on page 12, lines 4-15, the first

Art Unit: 2812

Embodiment calls for “a nitrided oxide layer” to be formed between the “wall oxide 316” and the “liner oxide 318”, where the “nitridation process is carried out in a annealing furnace or a rapid thermal process (RTP).”

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter:

The closest prior art of record, Beyer et al., US Patent 6,498,383 in view of Wu et al., US Patent 6,180,467, fails to teach or render obvious the method for independent claim 1, “...thereby forming the nitrided oxide between the liner oxide and the wall oxide.” In addition, the prior art of record fails to teach or render obvious the method for independent claim 14, “d) carrying out a nitridation process for forming a nitrided oxide on the wall oxide; e) forming a liner oxide on the nitrided oxide;”

Response to Arguments

Applicant's arguments with respect to claims 1 and 3-20 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2812

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
